## STORY

Westalis secret agent Twilight receives orders to uncover the plans of Donovan Desmond, the war-mongering chairman of Ostania's National Unity Party. To do so, Twilight must pose as Loid Forger, create a fake family, and enroll his child at the prestigious Eden Academy. However, by sheer coincidence, the daughter he selects from an orphanage is secretly a telepath! Also, the woman who agrees to be in a sham marriage with him is secretly an assassin! While concealing their true identities from one another, the three now find themselves living together as a family.

After reliving old memories of his wartime childhood and his journey to becoming a spy, Loid resolves anew to fight for peace. Around the same time, Yor has a chance encounter with Melinda Desmond, the wife of Loid's target. The two become friends, and Loid ponders how to exploit their relationship as part of a new "mommy friends" scheme, spurring Anya to get serious about her own friendship scheme with Damian!
